SKILLS

- Languages:** Python, JavaScript, Java, SQL
- Web Technologies:** HTML5, CSS3, Node.js, Express.js, React.js
- Machine Learning:** Scikit-learn, TensorFlow, Keras
- Tools:** Git, Docker, AWS, Jupyter
- Databases:** MySQL, MongoDB
- Other :** Problem Solving, Collaboration

EDUCATION

B.Tech, Computer Science, 2022- 2026
Specialization : AI & ML
Woxsen University, India

CGPA: 8.5/10

CERTIFICATIONS

- AWS Certified Machine Learning
- IBM Full Stack Developer – Coursera
- Professional Skills For the Workplace - Coursera

PROFESSIONAL SUMMARY

Artificial Intelligence & Machine Learning Enthusiast with hands-on experience in full stack development, cloud-based deployments, and machine learning applications. Skilled in building scalable web solutions and implementing AI-driven models to solve real-world problems with efficiency and innovation.

EXPERIENCE

Full Stack Developer Intern | TCS, Mumbai *May 2024 – July 2024*
Tech Stack : Python, FastAPI, AWS (EC2, S3), React, NLTK

- Integrated** sentiment analysis model into an internal dashboard, cutting manual review time by **50%**
- Deployed** a scalable sentiment analysis model handling **10,000+** feedback records per week for real-time insights across teams.
- Collaborated with a 3-member team to preprocess and structure **50,000+** customer feedback entries boosting model accuracy by **15%**.

AI/ML Developer Intern | Infosys, Bangalore *May 2025 – Aug 2025*
Tech Stack : Python, MLflow, AWS SageMaker, Pandas, NumPy

- Developed and fine-tuned machine learning models, improving prediction accuracy by **20%** on client datasets of **100,000+** records.
- Automated** model training and evaluation pipelines, reducing experimentation time by **40%** and accelerating delivery of POCs.
- Deployed optimized ML models, achieving **30%** faster inference times and enabling scalable, low-latency solutions for enterprise applications.

KEY PROJECTS

Online Learning Management System(LMS) *July 2025 - Present*
Tech Stack: React.js, Node.js, Express.js, MongoDB, Razorpay API, AWS S3

- Built a responsive web platform with course enrollment, progress tracking, and role-based dashboards for students and instructors.
- Integrated** Razorpay for secure course payments and implemented JWT authentication for secure user access.
- Optimized MongoDB queries and caching, reducing page load times by **35%** and improving user retention.

AI-Powered Chatbot for Customer Support *Sep 2023 – Nov 2023*
Tech Stack: Python, TensorFlow, Dialogflow, Node.js, React.js

- Developed a real-time messaging platform with one-to-one and group chat features, supporting **5,000+ concurrent** users.
- Implemented Socket.IO for low-latency communication and end-to-end encryption for secure message delivery.
- Deployed on AWS EC2 with load balancing, reducing downtime to under **0.5%** and ensuring high availability.

RESEARCH & PUBLICATIONS

- Co-authored research on lightweight ML models for edge computing. *International Journal of Emerging Trends in Engineering Research (IJETER)*, Vol. 12, Issue 3, March 2025

ACHIEVEMENTS

- Class Representative – B.Tech CSE (AI & ML), 2023–2024
 - Interfaced between management and peers to streamline communication, resolve issues, and support academic initiatives.
- Core Member – Developer Student Club (DSC), Woxsen University
 - Organized 3+ hands-on workshops on web development and cloud computing, engaging **100+** students and boosting participation in campus hackathons.
 - **Collaborated** with **20+** members to organize events strengthening the developer community in the campus
- First Runner Up, 24 hr coding hackathon, Innoverse 2024
- Solved **40+** problems on LeetCode
- Recipient of the prestigious Kishore Vaigyanik Protsahan Yojana (KVPY) Fellowship
- Awarded National Talent Search Examination NTSE scholarship by NCERT, Govt. of India
